Dear Greg Spafford,

I just want to say thank you for the part you have played in Canadian Hazelnut's leap from a large but simple commodity hazelnut farmer in BC to a value-add hazelnut oil and oil products producer that has a global vision.

You have collaborated with us and helped us reach our goals and objectives to launch new organic products in local, regional and global markets. The market research is comprehensive and provided valuable market and competitive information. The business plan helped us get our initial funding, and the value continues to manifest itself as we move forward with the new Agri-Opportunities initiative.

I anticipate the future with enthusiasm and recognize what a large part you and your team have played in turning this from a dream to a reality.

Thank you for your commitment to our needs as we look forward to a lasting and profitable future.

Sincerely,

Pentti Hanninen, President
Canadian Hazelnut Inc.
